**MEETING SUMMARY:**

NEII requested this closed meeting with CPSC staff at the Manufacturing Facility for Montgomery-Kone in Moline, IL. At this meeting, NEII and ADL demonstrated the real-object testing task of Phase II. NEII requested that this meeting be closed to allow them to present this confidential, proprietary information to the CPSC staff. The information that ADL will provide is crucial to determine the progress to date in determining if performance standards can be developed to address the step-skirt entrapment hazard.
